Custom Capabilities

- Tags, Labels and Combinations
- Barcoding
- Variable Imaging
- Consecutive Numbering
- 4-color Process
- Flexographic and Flatbed Letterpress Processes
- Finishing
- Multi-ply Constructions

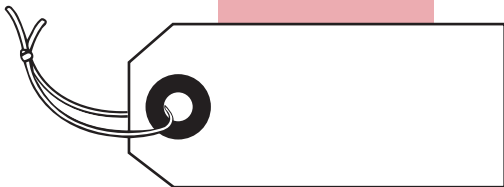

TAG SPECIFICATIONS

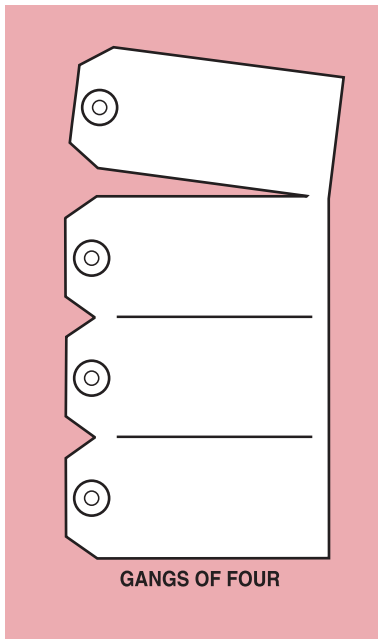

METAL WIRED

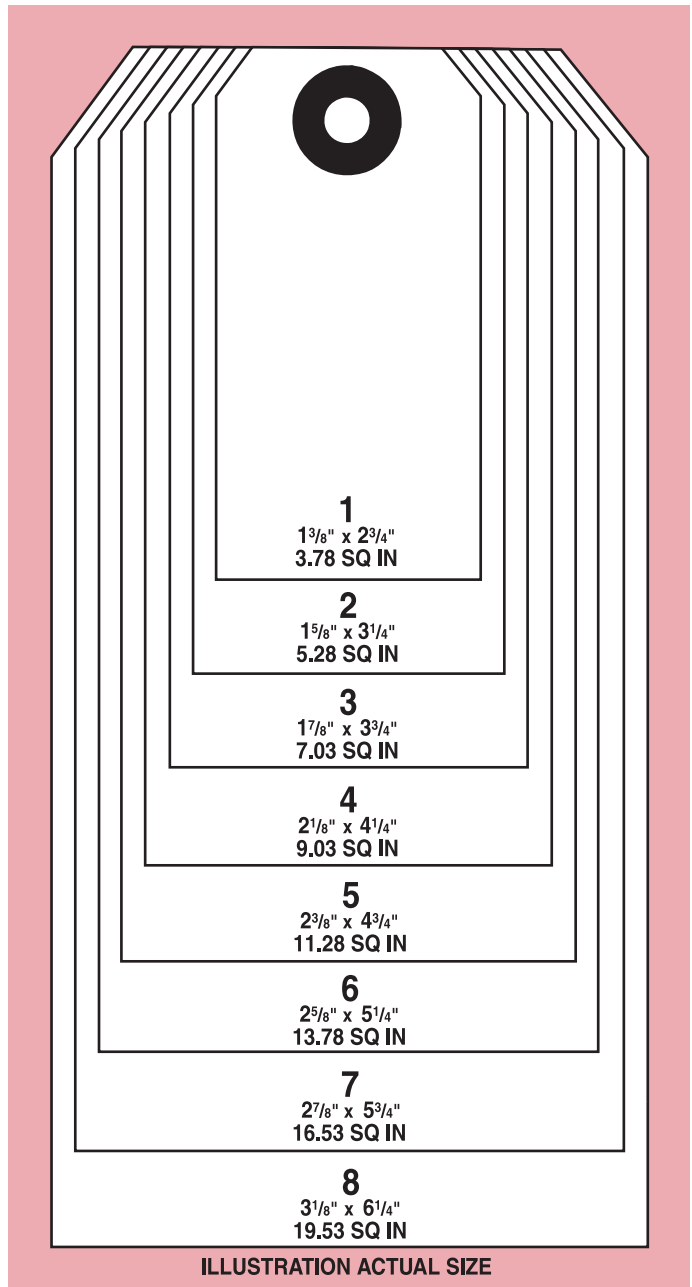

LOOPED STRUNG

KNOTTED STRUNG

GANGS OF FOUR

Please Note:

1. 12"- 26 gauge double wire is used on pre-wired stock products.
2. 23 and 21 heavy gauge wiring is also available by special order.

Tag Stock

SU – this stock is sometimes referred to as a Sulfate Stock, 100% chemical wood pulp
CSU – starts as an uncoated white stock and then coated with color.

Blank Tags

High quality tags perfect for many different marking uses. 10 pt. SU, 13 pt. SU and CSU grades available in a variety of standard sizes. Colored and fluorescent tags are available in 13 pt. CSU. Ideal for color coding and easy identification. Many tags are stocked with strings or wires attached. Blank tag colors and descriptions are listed on pages 4 - 7. All tags are packed in master shipping containers. See your price list for additional details.

Continuous Blank Tags

Blank continuous tags provide a practical and inexpensive alternative to custom printed tags. Choose from durable, tear resistant Tyvek®, white tag stock or two-part Glatfelter carbonless. See page 8 for more information.

Tyvek® Tags

Manufactured from Spunbonded Olefin, this is our toughest, most durable shipping tag available. Because it is tear resistant, even when wet, and resists chemicals and mildew, this tag is an excellent choice for tough environments. Size and descriptions are listed on page 7.

Vinyl Tags

Produced on 10 Mil calendared vinyl, these tags provide a smooth writing surface on a durable tag. Moisture and oil resistant, high puncture and tear strength. Size and descriptions are listed on page 7.

Inventory Tags

The industry's most complete selection of one-part, two-part and three-part manifold inventory tags aid in keeping inventory in check. The tags are constructed of 10 pt. tag & carbon interleaf bonds, carbonless stocks or Tyvek®. See pages 9 - 12 for descriptions.

Stringing and Wiring

Save time and effort by having strings or wires added to your stock tag purchase. The strings and wires can be pre-attached or you can purchase them and attach them yourself.
